

POLICY FOR QUALITY, FOOD AND FEED SAFETY

As one of the leading food companies, with integrated Operations, our purpose is to improve the Global Food Production Chain.

- We always strive for the highest possible level of quality, food and feed safety and health.
- We ensure that our performance meets or exceeds global certification schemes, agreements and regulatory requirements.
- Together we determine the success of our company. We continually build skills through training and personal development.
- We keep our promises and communicate openly.
- We implement Continuous Improvement programs in order to meet requirements and expectations of our customers and stakeholders.
- We leverage comprehensive Quality Management Systems that incorporate standardized policies to help achieve our Mission.
- Our suppliers shall be aware of and adhere to our high level of quality and safety standards.
- We are committed to producing in an environmentally sound and sustainable manner.
